

The Share Table

THE LITTLE GARDEN CLUB OF BARRINGTON
SHARES ITS HARVEST

ON SEPTEMBER 18, The Little Garden Club of Barrington gathered at the home of Peggy and John Thodos for its first meeting of the year. Members brought a variety of items that they grew or harvested for their club's "share tables", offering samples to take of everything from honey to apples, and vegetables to flowers.

After the club's business meeting and a lovely buffet style lunch, club members were presented with a detailed and educational honey harvest demonstration in an enclosed space. There, the process of harvesting honey was taken through all steps and the guests enjoyed tasting honey fresh from the comb.

The Little Garden Club of Barrington was organized in 1935 by a group of young women interested in experimental and research work in the garden. Over the years, the club's activities have expanded to include participation in community affairs and Garden Club of Illinois projects, but the club has largely remained a study group for the benefit of its members. Its purpose is to promote good gardening practices, beautify the countryside, conserve natural resources, and increase the understanding of nature's bounty. The Little Garden Club meets on the third Monday of each month from September to May. Membership is by invitation. U

Gracious meeting hosts Peggy and John Thodos.
