- Final artwork should be exported as a **PDF**. Include trim, crop, and bleed marks. **Do NOT include color bars or registration marks.**
- Color mode for final artwork: **CMYK**
- Design elements that are 100% black and are larger than 1 square inch should use a **CMYK recipe of 40-40-30-100.**
- Final artwork should be **300 dpi at the physical size it will be printed.** Artwork not at the desired resolution will be returned for a higher resolution copy.

PRODUCTION SPECIFICATIONS

Digital Ad Specifications

Ad layouts can be created using any design application like the Adobe Creative Cloud Applications or Canva. We do NOT accept: Publisher, Pages, PowerPoint, QuarkXPress, Microsoft Word, or jpeg files for ads. **Final artwork should be exported as a PDF document. Include trim, crop, and bleed marks. Please do NOT add color bars or registration marks in your artwork.**

Ads designed in-house: Graphics, photos, and fonts should be provided by the client. A printed proof of your ad can be provided upon request for a \$25 fee.

All **Photos** used in the production of your ad should be 300 dpi @ actual size to be printed; Color Model: CMYK; Format: .tif or .eps; NO JPEG compression.

All **Line Art/Text** should be 600 dpi minimum; Color Model: CMYK; Format: .eps or .tif with color preview. If using Photoshop, black text should be created in black channel only (C=0,M=0,Y=0,K=100). **Type smaller than 8 point with fine serifs should be avoided.**

Color Tone Values: To avoid over-saturation of ink, the total combined value of CMYK colors should not exceed 300% (i.e. C=100, M=100, Y=50, K=50). Any one color with a required value over 85% should be made a solid CMYK color. Do not produce black text as a CMYK color. Select black only. **When using large areas of black, please use a CMYK recipe of 40-40-30-100. Text larger than 144 points and placed over a 4 color image should also use this recipe.**

Color Mode: Ads should be converted to CMYK prior to submission. Ads received in RGB color will be converted to CMYK. Please be aware that color shifts may occur if the final artwork is not converted to the correct color mode.

Fonts: When submitting original design files, include screen and printer fonts. Convert text to outlines for illustrations; outlined text cannot be altered.

Services are purchased and scheduled through Quintessential Media Group.

Client has the choice of submitting a pre-printed insert to Royle or to have Royle print the piece.

All pieces must be pre-approved by Royle Printing Company before printing.

BELLYBANDS

Direct readers right to your ad inside the magazine with a printed paper band that wraps around the outside of the magazine. Readers must remove the bellyband to look inside, thus it's impossible to ignore your advertisement.

COVER TIP-ON

Grab the readers' attention before they even open the magazine with a custom designed cover tip-on affixed directly on top of your magazine's front cover.

POLYBAG INSERTS/PRINTED POLY

Looking for the impact of being first? Then get your message in front of readers before they open the magazine. Insert your pre-printed brochure into a plastic polybag, or print your message directly on the plastic. Your ad can't be ignored and won't have to compete with other ads inside your magazine.

FRENCH DOOR COVER

The front cover is the most visible page of the magazine and is designed to draw the readers' attention. A French Door cover ad lets you take advantage of the front covers powerful impact. The overlap in the image draws upon the readers' curiosity demanding that it be open to reveal your equally powerful advertisement.

GATEFOLDS

If a spread simply isn't large enough to deliver your message, consider a gatefold cover (3 pages) or butterfly gatefold (8 pages) inside the magazine. By placing your marketing message across three to eight pages (and anywhere in between), you increase your ad size and how well your ad is recalled by readers.

POST-IT NOTES/STICKERS

Looking for a "personal" way to grab potential customer's attention? Attach a Post-it note or sticker with a special message to your full page display advertisement. For additional impact, place it directly on the front cover while referencing what page your ad is on inside the magazine.

BUSINESS REPLY CARDS

If you're thinking about tipping or binding in a card, why not design a Business Reply Card. It's one of the easiest ways to get responses from prospective customers. They simply fill out the contact information and drop the postage prepaid card in the mail. The US postal service only charges you for the cards you receive back from interested readers.

TIPPING

Tipping allows inserting product samples, removable advertisements and even posters into a magazine. When the reader gets to your page, the product can be easily removed and used.
