

REINVENT.
REVEAL.
REDUX.

REDUX

INTERIOR DESIGN

Areas of Expertise: Whole room, whole floor, whole home design

Signature Style: Modern Classic

Step into a realm where your home is not just a space but a constantly evolving haven – where we embrace the spirit of reinvention, revelation, and redux. Your sanctuary, uniquely tailored for living, working, and entertaining, exudes confidence and security. In 2024, design trends harmonize with nature, marrying aesthetics with functionality, creating a refuge that both energizes and revitalizes.

While crisp, vibrant colors evoke happiness, subdued shades of brown, tan, and terra cotta, bring a sense of calm. We champion the use of natural materials – wool, cotton, plants, and natural stone slabs-encouraging an appreciation for imperfections and a deep connection with nature.

Our commitment to modern classic design combines the timeless allure of the past with contemporary sensibilities, adding value to everyday living. For busy professionals, our time-saving solutions streamline your experience, saving both time and money. In the journey of reinvention, revelation, and redux we invite you to explore further by visiting our website and scheduling a 20-minute consultation. Let's uncover the opportunities that await in your personalized, redefined space.

Jennifer McGinnis, Principal Designer
