

## **VIKING SKI & PATIO SHOP**

131 W NORTHWEST HWY | BARRINGTON | 847.381.1188

**Areas of Expertise:** Our dedicated team excels at guiding our clients through the process of transforming their outdoor space into a functional, beautiful oasis. With our combined decades of experience, we love to help our customers choose the best outdoor furniture for their space.

**Signature Style:** We don't have a signature style, per se. Our "style" is determined by the preferences of our customers. The outdoor furniture in our 5,000 sq. foot showroom can be customized to our client's vision for their deck, pool terrace or patio.

**Design Trends:** The outdoor furniture industry is seeing trends move towards bold colors and textured fabrics. Pops of color and textures are a nice addition to the browns and grays that have driven the industry for years. We are seeing people extending their indoor living spaces into indoor/outdoor entertaining spaces, and they are looking for a seamless transition between the two.

Modular seating is also gaining a foothold in the outdoor furniture industry. Being able to reconfigure the furniture to suit the current needs is very appealing for a flex space. Whether it is for an early morning coffee, late night cocktail or just chillin' by the fire pit, the flexibility of modular furniture is gaining popularity.
